

Technologist Protection X-ray Mobile Barrier

076993

The Mobile Screen ships on **one pallet**.

The Pallet contains two (2) bases with installation hardware and one (1) protection screen (Acrylic installed).

Place each base **"A"** at the ends of the mobile unit and attach them to the screen **"B"**.

After each base is securely attached, stand the unit upright.

Once the unit is standing, remove the strap holding acrylic panel.

Finally, remove the protective wrap and film from the acrylic.
